eplace

ePlace enables its agents to develop individual programs to meet the unique needs of every client.

We are committed to customizing each transaction to meet your specific needs resulting in higher profit margins for sellers and better

value opportunity for buyers. Our goal is to create the most efficient and value-added real estate transaction.

ePlace offers a progressive real estate model which empowers our clients through choice. We believe that we can best serve our clients by providing a wide range of service levels. This flexible approach is the foundation for the ePlace business philosophy.

Full Service

The full-service option allows sellers and buyers who prefer the traditional agent-client relationship to partner with an ePlace Associate to manage the entire process of selling or buying their home. With a vast amount of experience and broad knowledge of the current market, ePlace uses the latest technology to secure your sale.

Menu of Services

Giving clients the power to choose only those services that they need differentiates ePlace in the real estate industry. ePlace provides clients with a choice of services including showings, feature sheets, signage, valuation, offer drafting,

negotiating, staging, floor-plans, photography, e-marketing, open house hosting, and transaction processing. With this option, you plug in only as needed and you only pay for what you need. This is your transaction and we want it to be customized to fit you.

Online Auction

ePlace online auctions provide a unique opportunity for sellers to leverage the internet to reach purchase-ready buyers and cut their selling costs by more than half. This option is designed to build value for both sellers and buyers and lower the cost of the transaction. After a bid has been accepted, buyers and sellers can use our menu of services as needed to complete the closing process.

Equity Builder

In order to maximize potential equity in your home, ePlace provides the expertise and work force through the premium equity builder program. ePlace uses staging, home prep, landscaping and improvements to add value to your property. ePlace can even provide access to funds and manage the entire process for you. Through our consultative approach and an ROI-based ranking system, we help you to add value to your property.
